Głaz

High durability and low maintenance cost without compromising the high play value This tower has room for the majority of play activities of 6-12 year olds and signals climbing, sliding and hanging-out in a way that appeals to children. The many entry points make the tower easy to access while offering play all over, inside-out! The varied climbing and sliding activities allow children to fine tune their cross body coordination and spatial skills. The good bouncing gathering points are great for a break as is the top of the tower, with its view of the playground. Under the platform, the playshell offers space for a more private chat. The product is highly vandal resistant due to its use of high-quality, extremely durable materials such as stainless steel, hot-dip galvanised steel, S-HPL and coloured-through, UV-stable PE.

Grupa	Zestawy Multi Play
Kategoria	ELEMENTS™
Optymalny wiek użytkownika	6 - 12
Maksymalna wysokość upadku	300
Wysokość (cm)	425
Stefa bezpieczeństwa	37.8 m2

SOCIALIZE BALANCE CLIMB SLIDE TÜV EN 1176 SUR-FACE
